US Pharma Lab, Inc. Achieves GMP Certification

North Brunswick, NJ (May 2009): US Pharma Lab, Inc. (USPL) is proud to announce certification and compliance with Good Manufacturing Practices (GMP) as set forth in NSF/ANSI as defined in 21 CFR S 111, published by the FDA (Food and Drug Administration). USPL is a nutraceutical ingredient manufacturer with facilities located in China, India and The United States.

GMPs are requirements that provide guidelines for necessary processes, procedures and documentation to assure the product produced has the identity, strength, composition, quality and purity it is represented to possess. NSF conducted a plant audit to verify compliance with GMPs and will conduct periodic audits to ensure continued conformance. GMPs for the current NSF Dietary Supplements Program are included in NSF American National Standard 173-Dietary Supplements, the only American National Standard for Dietary Supplements. NSF's GMP registration service includes Good Manufacturing Practices inspections, ongoing monitoring and the use of the NSF Mark. See www.nsf.org for more details.
